HYBRID FLOORING

asttimbers.com.au

9mm Hybrid Built for Performance & Longevity

Maintaining a beautiful finish with minimal upkeep, our Empress Hybrid and Empress Herringbone Collections are the smart choice for spaces that require both durability and elegance. The 9mm thickness of this flooring sets it apart, providing significant benefits including greater strength and stability, while offering a softer, more comfortable feel underfoot.

With a clean and contemporary look, these collections offer a lasting impression.

Both the straight and herringbone styles are crafted to match the natural beauty and texture of real timber, while delivering the strength and convenience of hybrid flooring.
